

**DE NORA**  
our research - your future

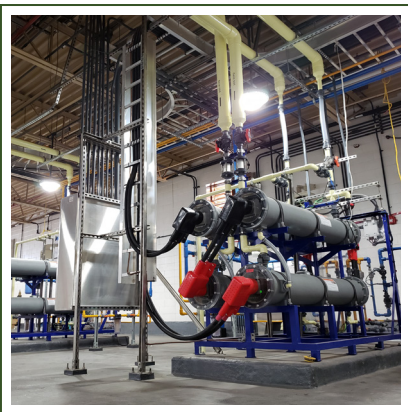

**Same great look.  
Same simple and precise operation.  
Same peace of mind.**

**Optimized for high efficiency.**

WATER MADE EASY

## **ClorTec® Gen III** on-site sodium hypochlorite generator

- **NEW!** optimized electrochlorination process improves salt & power efficiency, saves 15% opex
- Features robust, durable PVC/FRP casing with end view ports, remote monitoring and control, unique split flow option for further optimization
- Simple operation and maintenance with 100% access to every component
- De Nora brings 95+ years of electrochlorination experience, 6,500 EC systems, 3,500 ClorTec systems, >355 patents, De Nora DSA® anodes
